INFORMATION FOR DATABASE USERS

Users are allowed

- Use electronic resources for studies or research without infringing on copyright laws.
- Use electronic resources (download/print/copy to an external hard drive) only for personal usage and in small quantities. In one session you can download no more than:
  - 2 articles from one issue of an electronic journal
  - 20% of an electronic book.

Users are not allowed

- Use software that allows to download and save information on the computer.
- Copy, print, move the whole journal issue or electronic book to the computer.
- Upload the information from subscribed databases on the internet; share the information with the third parties or use the information for commercial purposes.
The access to the subscribed databases is available through KTU computer networks. If you want to use the databases at home, you can choose among the following:

**VPN network** (Virtual Private Network) is a network service that allows KTU employees and students to log into University’s computers. You can find information on how to install VPN [here](#).

**Remote Access (Ezproxy)**. Using remote access KTU members can log in using a unanimous username and password.

**KTU Virtual library**.
SUBJECT GUIDES

Thematically classified e-resources: ebooks, e-articles, reference material, dissertations and thesis, patents, standards, interactive resources based on subject fields.

Library provides training workshops and consultations

- How to use Library information system and services
- Where to find resources for your research paper
- How to cite and prepare a list of references for a course paper
- How to use reference management tools

Trainings
The section Training provides training schedule and training materials.

About training, Training schedule

Bibliographical references management program Mendeley
Bibliographical references management program RefWorks
How to cite and prepare a list of references (API citation style)
How to cite and prepare a list of references (ISO 690:2010) (for technological sciences)
How to conduct plagiarism detection (for researchers)
How to find information resources for your final thesis/ course paper? (technological and physical sciences)
How to find information resources for your final thesis/ course paper? (social science)
How to upload final project to eLABs repository
Intellectual property rights and plagiarism prevention
Learning materials
Video guides
Training sessions

Training sessions at KTU library

15:00 How to use information resources and create a reference list (API citation style)
15:15 How to use information resources and create a reference list (ISO 690:2010)
15:30 How to find information resources for your course paper
15:45 How to find information resources and create a reference list (API citation style)
16:00 How to upload final project to eLABs repository
16:15 How to upload final project to eLABs repository
16:30 How to upload final project to eLABs repository

Trainings
In the section Video guides user can learn how:

- to search of an item in the e-catalogue
- to order items and to extend the loan period
- to copy, print, scan and pay for these services
- to search in the subscribed databases, etc.
These programmes allow to preserve bibliographical information from the library catalogue, databases and other e-resources and use them when citing and making a list of references in research papers.

RefWorks
http://www.refworks.com
EndNote
http://myendnoteweb.com

Mendeley
http://www.mendeley.com
