The screenshot shows a library website interface. At the top, there is a navigation bar with links for 'New Search', 'Help', 'Tags', 'eJournals', 'eBooks', and 'Browse'. On the right side of this bar, there is a user profile icon labeled 'Name surname' and a 'SIGN OUT' link. Below the navigation bar is a search bar containing the text 'Library and Other Resources' and a search icon. A dropdown menu is open from the user profile icon, listing options: 'My Account', 'My Loans', 'My Requests', 'RefWorks', 'Saved items', 'Search history', and 'Language/Kalba: English'. The 'My Account' option is highlighted with a yellow circle. Below the search bar, there is a 'My Account' header with a back arrow and a search icon. Underneath, a horizontal menu is highlighted with a yellow box, containing 'OVERVIEW', 'LOANS', 'REQUESTS', 'FINE + FEES', 'BLOCKS + MESSAGES', and 'PERSONAL DETAILS'. The 'OVERVIEW' page displays three main sections: 'Loans', 'Requests', and 'Blocks + messages'. The 'Loans' section lists three items with their titles, authors, due dates, and return locations. The 'Requests' and 'Blocks + messages' sections both indicate that there are no requests or blocks/messages. The 'Fine + fees' section indicates there are no fines. At the bottom of the 'Loans' section, there is a link to 'VIEW ALL 4 LOANS >'. The 'Language/Kalba' section at the bottom right of the dropdown menu shows the current language is English.

Search hints

- If you choose Yes for "Words adjacent?" you will find records that have the word *computer* NEXT to the word *programming*.
- Lowercase letters will find matches of capitalized words also. For example, *computer* will find *Computer*, *COMPUTER*, *computer*, *COMPUTER*, *COMPUTER*.
- You may use the Boolean operators AND and OR in your search string. For example, you could type *(heart OR cardiac) AND surgery* to retrieve all records having *heart* or *cardiac* in them, together with the word *surgery*.
- Use the ? or * character to find matches that contain portions of words. For example, *gun?* will retrieve *gun*, *guns*, *gunners*, *gunnery*, *gunning*, etc. In another example, *?ology* will retrieve *anthropology*, *archaeology*, *psychology*, etc. The ? character may also be used to find variant spellings. For example, *alumi?m* will find both the American spelling, *aluminum*, and the British spelling, *aluminium*.
