

# Bibliographical references management program *RefWorks*

Kauno technologijos universiteto biblioteka biblioteka@ktu.lt

## What are bibliographical reference?

#### ktu

Searching for scientific literature, collecting references to sources, articles, books, their bibliographic records, etc.

It is easy to get lost in the large amount of information collected, and there is a need to organise information so that it can be found, accessed or shared more quickly.

Bibliographic reference are data about a document that describe and identify the document.

For example: title, author, place of publication, year of publication, etc.

# Bibliographical reference management programs

ktu

Bibliographical reference management programs are used to simplify management of bibliographical information.

#### For example:

- Preservation of documents;
- Preservation of bibliographical references from library catalogues, databases or other resources;
- Option to include references to cited resources by a click of mouse;
- Program can generate list of references according to selected citation style.

### Bibliographical reference management programs

#### ktu

#### **Subscribed:**

- RefWorks
   https://refworks.proquest.com
- EndNote
   http://myendnoteweb.com

#### Free of charge:

- Mendeley
   <u>http://www.mendeley.com</u>
- Zotero <u>http://www.zotero.org</u>

zotero

RefWorks ktu

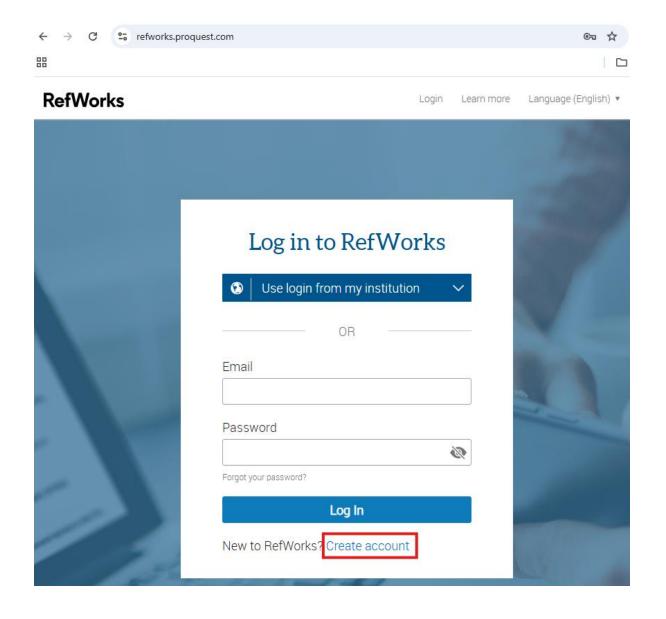

- Create a personal database online. Store an unlimited number of records accessible from any
  computer linked to the Internet. No downloading software or installation required.
- Import references automatically from multiple databases. Search results from a wide variety of databases can be automatically exported into RefWorks with the click of a button.
- Organize and manage references. Sort and file references quickly and easily using folders, duplicate search, and author, keyword, and periodical indexes.
- Share references. Using the Internet, easily collaborate with members of your own institution or globally with other researchers, faculty members, or students.
- Format bibliographies and manuscripts in seconds. Save hours of typing time and decrease the number of errors made when creating tedious bibliographies. Easily make changes to your paper and reformat in seconds.

# RefWorks functionalities – preservation of bibliographical information

ktu

There are several options to preserve bibliographic information in RefWorks:

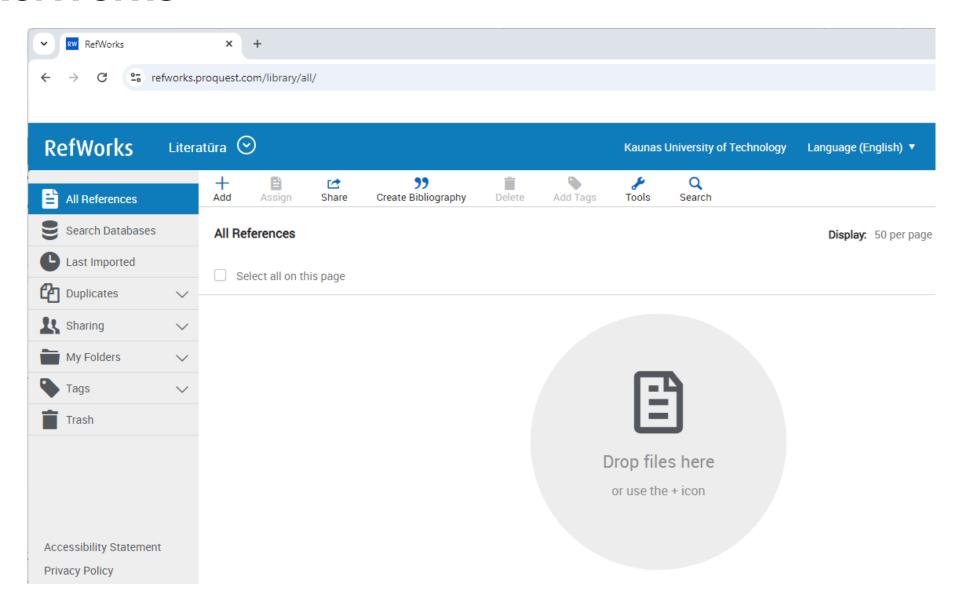

- direct transportation of bibliographic records from databases;
- Preparation of bibliographical references manually;
- records transportation from other reference management programs.

#### RefWorks

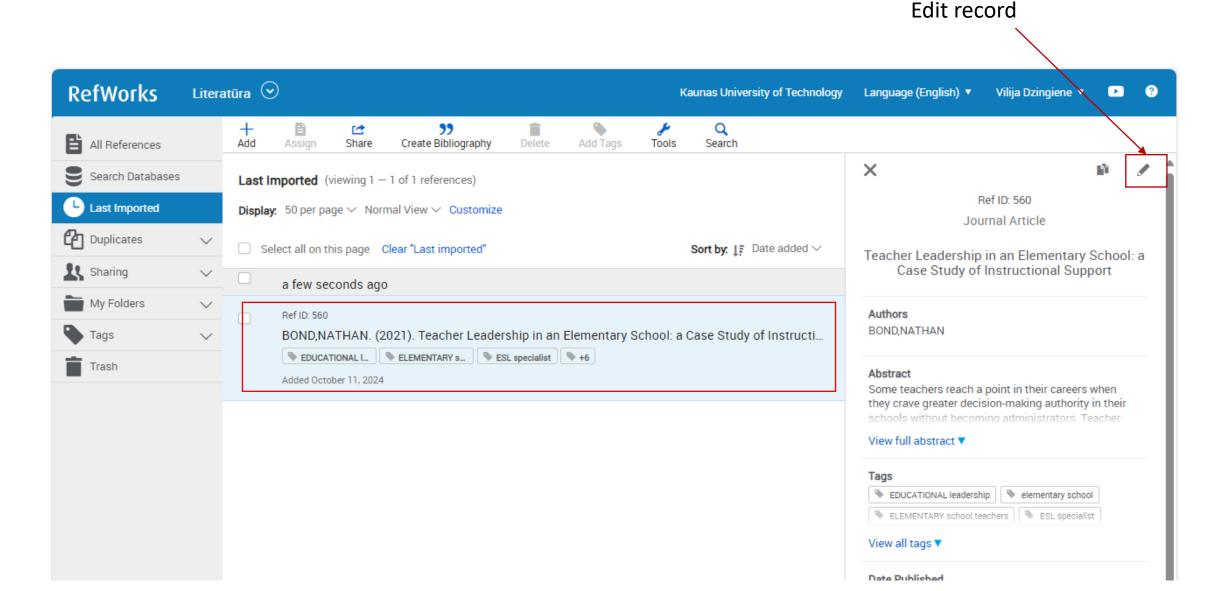

## Direct references upload from databases

#### ktu

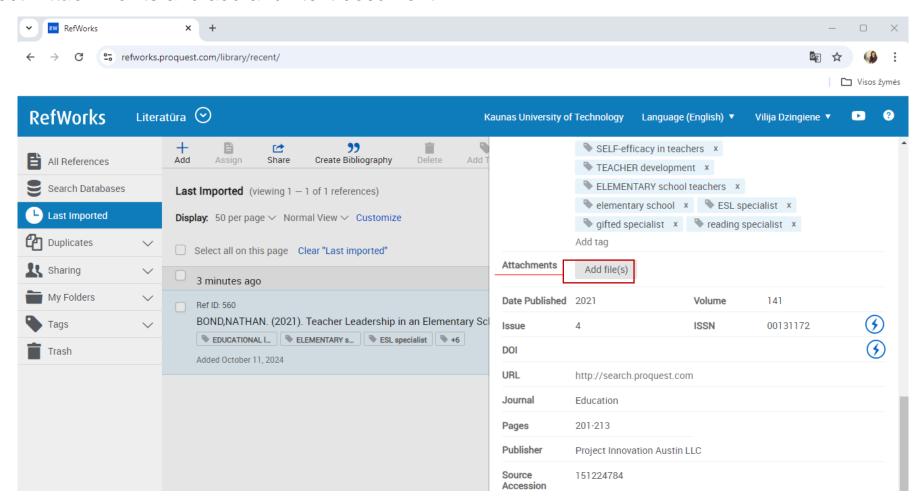

# Example of uploaded record

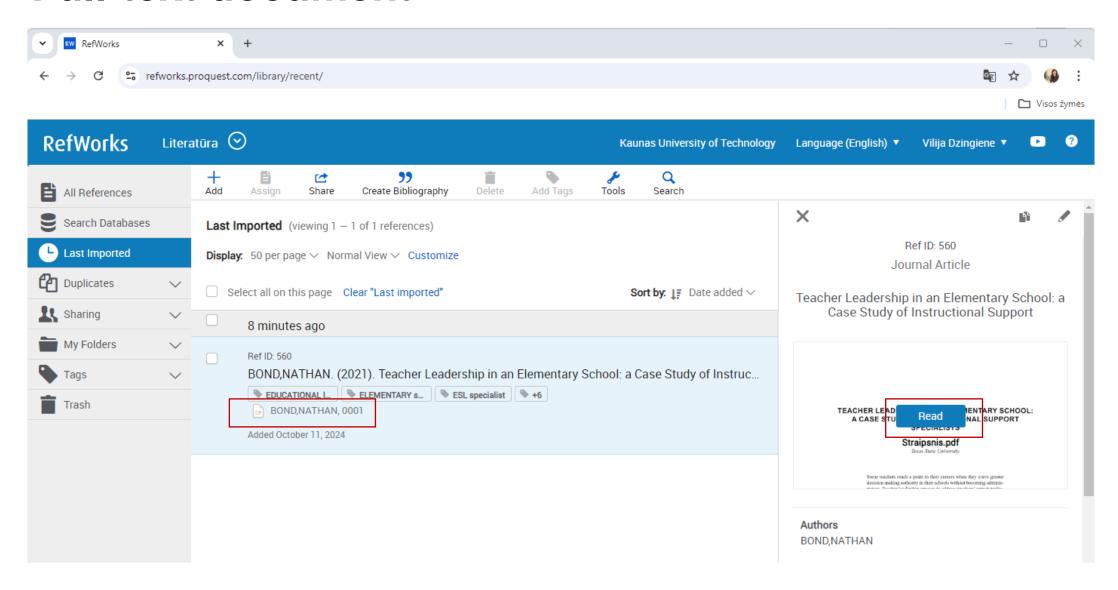

#### Full-text document upload

- 1.Select title
- 2.Select editing button
- 3. Select *Attachments* and add a full-text document

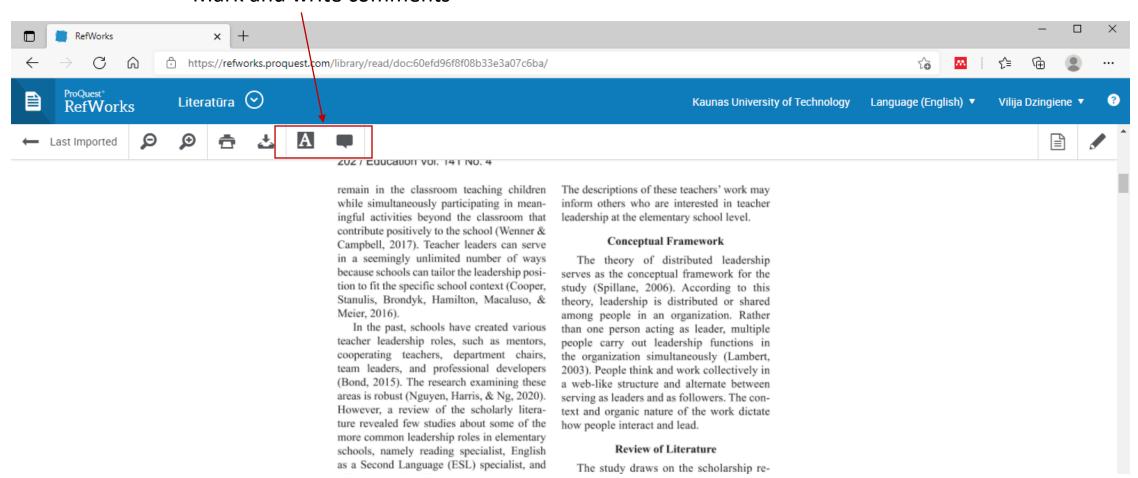

#### **Full-text document**

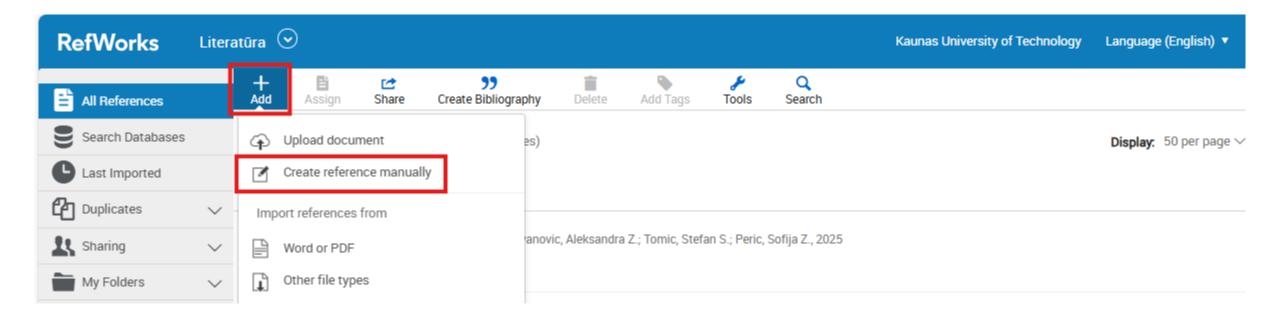

#### PDF document

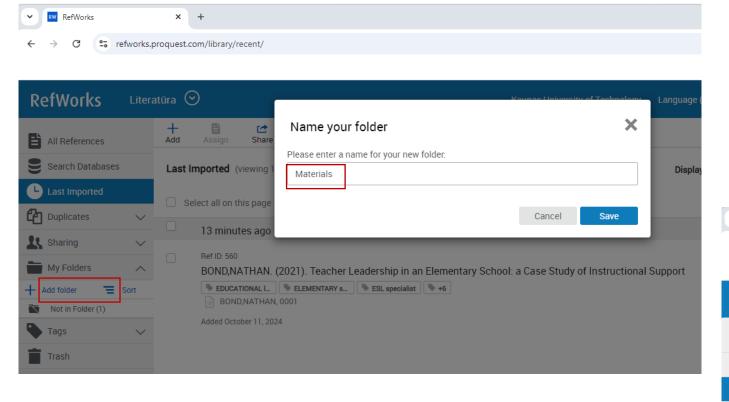

#### Mark and write comments

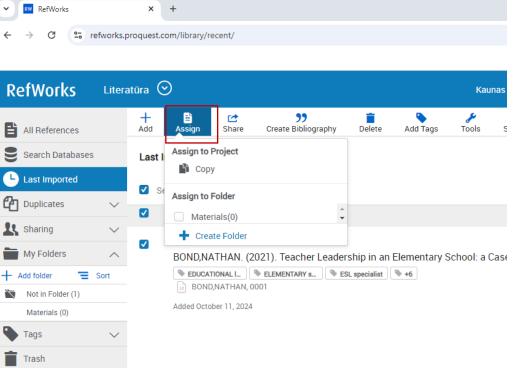

## **Record creation manually**

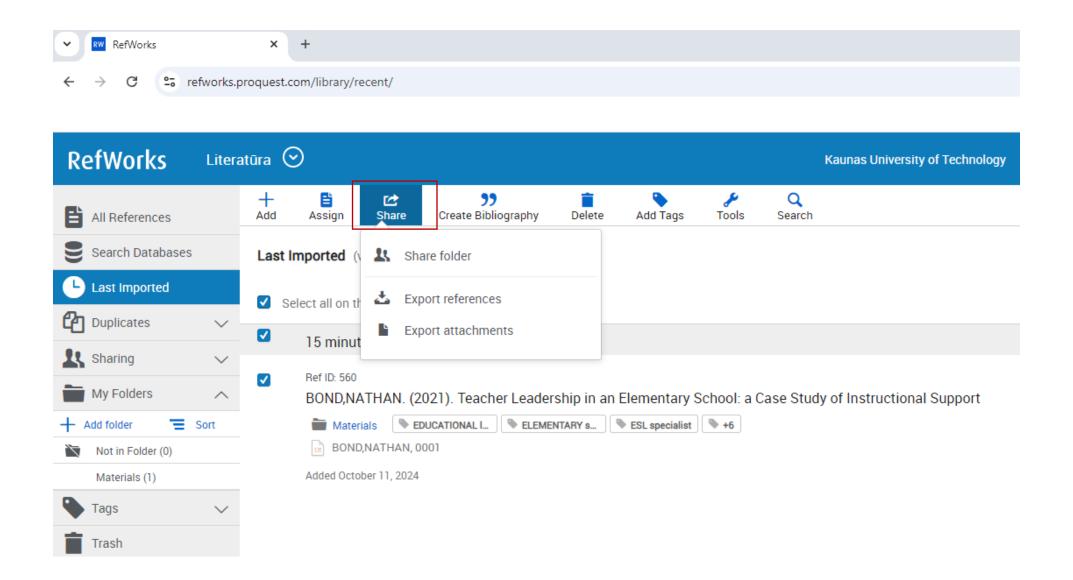

# Managing of preserved records

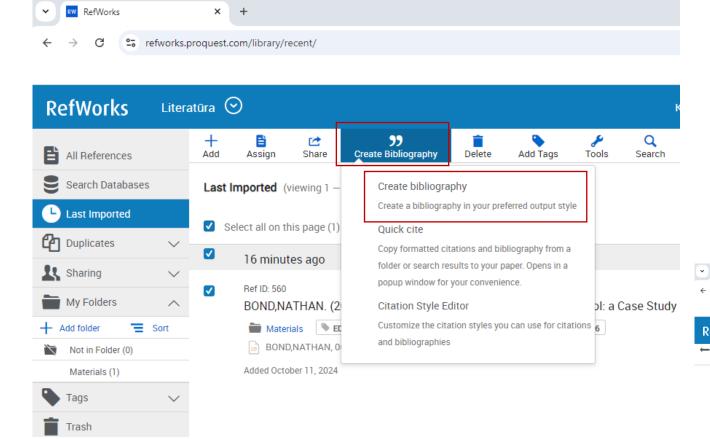

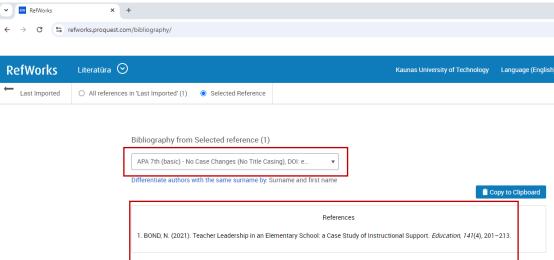

# **Sharing references with others**

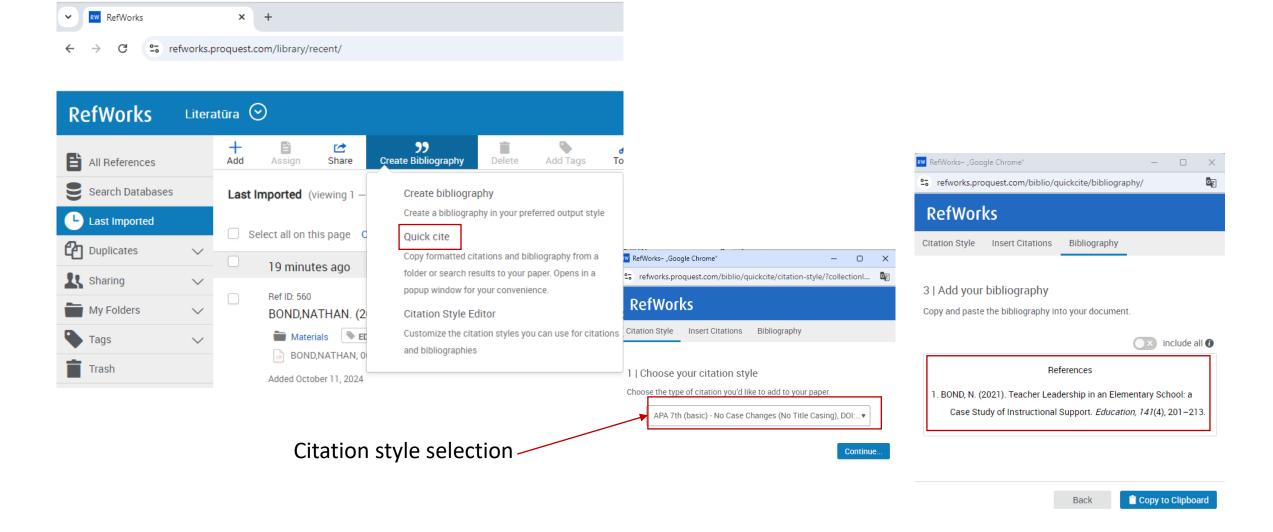

# Prepare a list of references (1) Create Bibliography

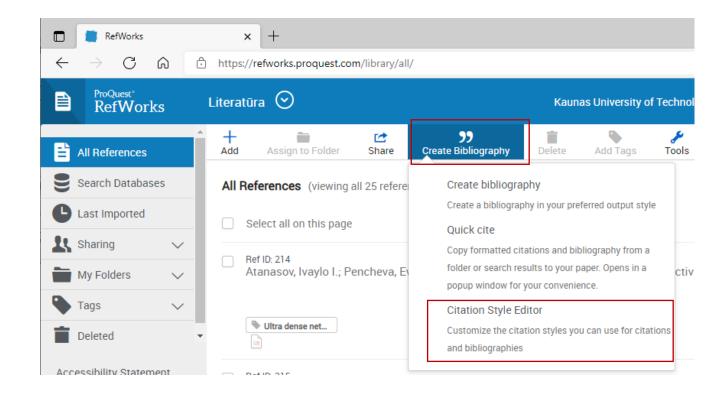

# Prepare a list of references (2) Quick cite

# Changing the citation style (1)

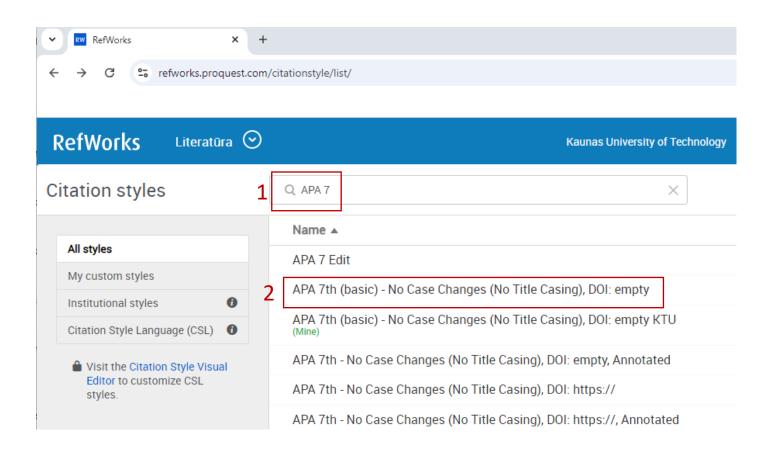

RefWorks allows you to edit existing styles.

Create Bibliography > Citation Style Editor.

# Changing the citation style (2)

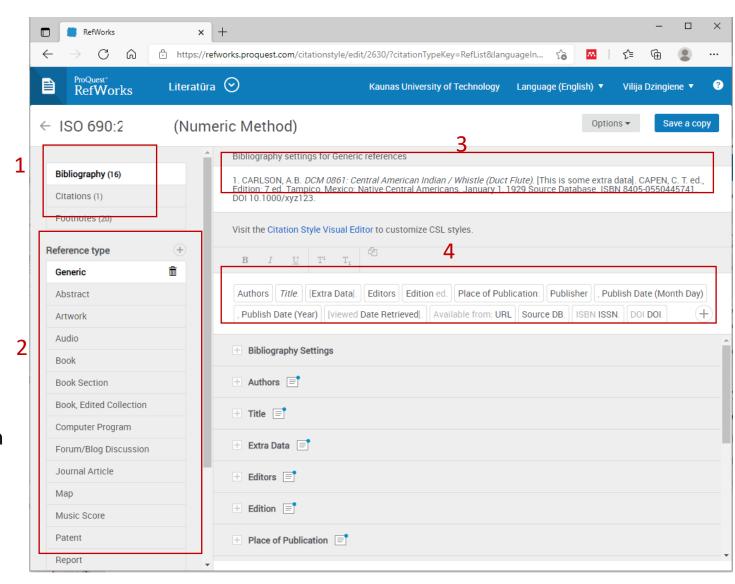

In the search box, enter the citation style you want to change, e.g. APA 7(1) and then select the style you want to edit, e.g. APA 7th (basic) ...(2).

# Changing the citation style (3)

The citation style can be edit (1):

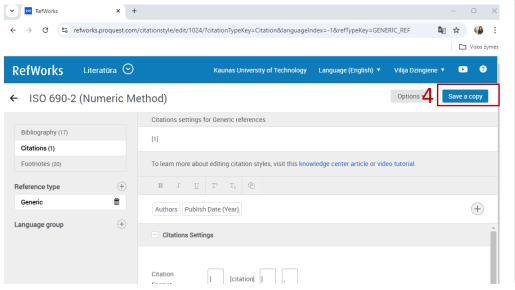

- Bibliography
- Citations
- Footnotes
- (2) Choosing the Reference type
- (3) Bibliography settings for Generic references.
- (4) fields included in the citation style, so you can edit the desired field by selecting it.

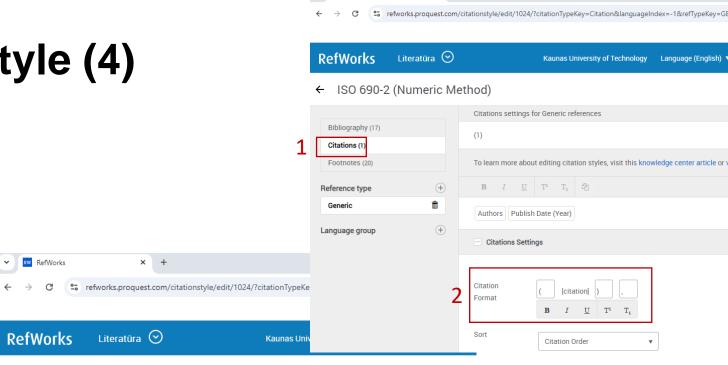

# Changing the citation style (4)

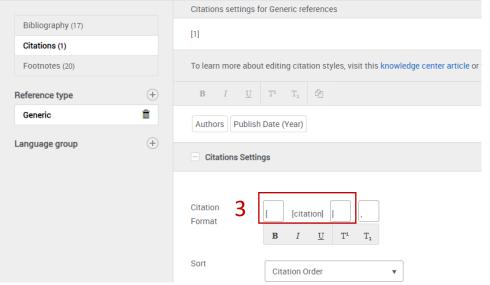

How to change references in the text from curly brackets to square brackets using the citation style ISO 690:2:

- 1. Citations
- 2. Citation Format
- 3. Change curly brackets to square brackets
- 4. Save a copy

← ISO 690-2 (Numeric Method)

# **RefWorks Citation Manager (1)**

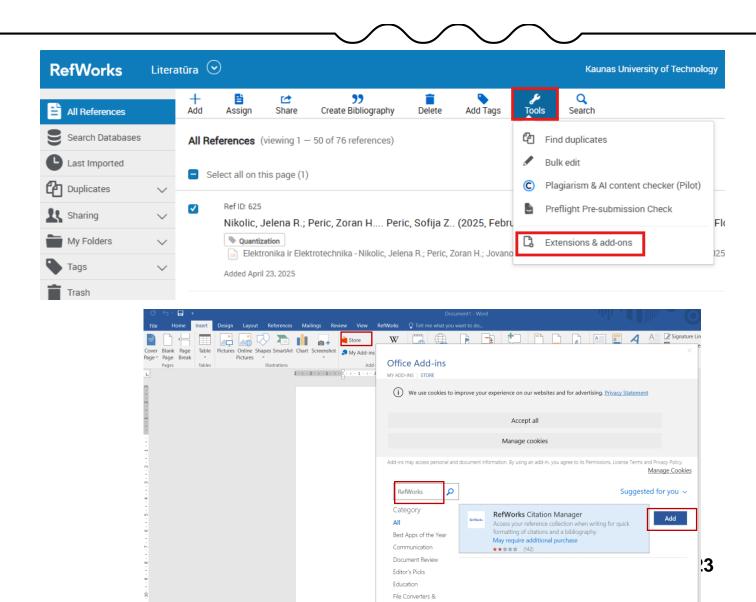

ktu

RefWorks Citation Manager can be installed in MS Word by selecting **Tools**.

RefWorks Citation Manager can also be installed from MS Word by selecting **Store**.

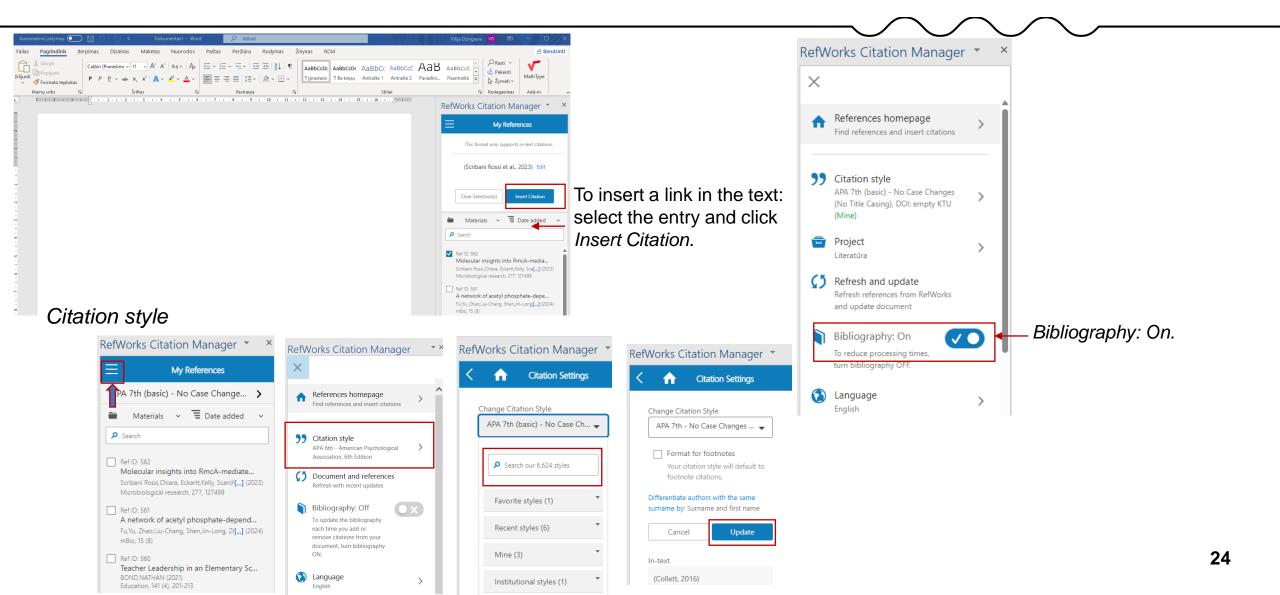

Watch a video on how to use RefWorks Citation Manager here: https://youtu.be/uLun\_yO7heY

RefWorks tools can also be used for **Google Docs**.
